## Sublevel page 3

The screenshot shows a website layout with a header containing a logo, search bar, and navigation links. The main content area is titled 'Purchase Options' and contains two columns: 'Contact a Reseller' and 'Government & Education Options'.

**Contact a Reseller**

StyleCAD's resellers understand your design processes and business requirements, and they specialize in various industries and applications. Our resellers help you choose the best combination of software, hardware, and services to meet your objectives.

Ask your Autodesk Authorized Reseller about , the complete software, support, and training package. Your reseller can also help you purchase the that best meets your needs

*Locate a Reseller in the US*

Choose a State

**Government & Education Options**

**Education**

Whether you are an educator looking to purchase a lab or student interested in a personal license, Autodesk provides the academic community affordable pricing on Autodesk software, curriculum, and training.

Functional Spec //

---

The navigation bar will have dropdown menus.

There will be jquery image sliders on many pages.

Javascript will need to be implemented to apply transitions and hover states.

Videos will be embedded throughout the site.

Case studies will need to be collected.

A forum will be installed to handle support and community discussion, the proper html and embedding will follow.

We will be pulling most images, copy, videos and print materials uploaded from the original StyleCAD website. The bulk of our work is organizing that content.
